JPEG

30mm clear of any text or image

Pink line print size 850mm x 2200mm (**visual area 850mm x 2000mm**)

Green line clear of text or image other than background image

The bottom 200mm must only be used for background colours or images or left blank, this section will be hidden and rolled into the unit. Your 2m tall design should be at least 75mm into this area as shown by the blue line. This allows for any high variance and prevents white showing.

For Roller banner artwork to be produced accurately, please ensure that you follow the requirements below.

- 75mm bleed to lower lever short edge only
- No crop marks
- Include finished size and quantity in your file name.  
(850mm x 2000mm, name of file x 7)
- In CMYK colour mode
- All images embedded
- All fonts converted to outlines/curves/shapes

## Roller Blind

1. Make your artwork 3.5cm smaller than the width of the window if installing in a recess to allow for the blind mechanism and brackets

2. Add an extra 20cm at the top and 2cm at the bottom (to the measured length of the window) for wrapping around the blinds top and bottom bars

3. Please note that we can only print to a maximum of 1.5m to any one side, but can print any length to the other.

Pink line total size including wrap-around for bars - Add 20cm to top and 2cm to bottom  
Green line visual measured area of window as noted in point 1 above

For roller blinds artwork to be produced accurately, please ensure that you follow the requirements below.

- 10mm bleed
- No crop marks
- Include finished size and quantity in your file name.  
(841mm x 594mm, name of file x 250)
- In CMYK colour mode
- All images embedded
- All fonts converted to outlines/curves/shapes
